

NEAR 3 MILLIONS IN BUILDING HERE IN 11 MONTHS

TRUSTEES ORDER
STREET OPENINGCOMMERCIAL BOULEVARD WILL
CONNECT BROADWAY AND
SAN FERNANDO ROAD

BUSINESS MEN FAVOR

LARGE DELEGATION, BACKED BY
WELL SIGNED PETITION, IS
WINNER OF HIGHWAY

After an hour and a half of discussion last night, following several months of investigation, petitions and protests, the ordinance ordering the opening of Commercial street, from West Broadway to the San Fernando road, was adopted by the city trustees by a vote of three to one.

The adoption of the ordinance was moved by Trustee Bartlett and the motion carried with the support of Trustees Robinson and Henry. Trustee Stephenson voted no, but previous to the roll call stated that as the result of the final hearing a point had been brought out that might influence his decision and he asked for a week's further delay. The motion prevailed, however, and Trustee Stephenson, unable to secure the time sought for to investigate the new point, voted no. Trustee Shaw was absent.

More than a score of business men were present to urge the passage of the ordinance, backed up by a petition signed by more than one hundred heads of business houses, and they applauded the announcement that the proposition to open up the thoroughfare had carried.

Petition Is Presented
With Trustee Stephenson presiding in the absence of Trustee Shaw, the petition of the business men favoring the opening of Commercial (Continued on Page 4)

HOLD LUNCHEON

ELEGANTLY APPOINTED ONE
BY REV. DAVIS TO HEADS
OF SUB-DISTRICTS

Dr. and Mrs. C. M. Crist were guests on Tuesday at an elegantly appointed five-course luncheon at the home of Dr. and Mrs. W. L. Y. Davis, in Pasadena.

Table decorations were in the Christmas holiday colors, and the centerpiece was a magnificent Thanksgiving fruitbasket. Ribbons extending from the chandelier led to handsome candelabra, which lent the soft glow of candle light to the table and places were marked with clever conundrum place cards.

Mr. Davis is district superintendent of the Pasadena district of the Methodist church, and his guests were heads of sub-districts and their wives.

Those invited to partake of the hospitality of Dr. and Mrs. Davis were Dr. and Mrs. C. M. Crist of Glendale, Dr. and Mrs. W. C. Guyer of Covina, Dr. and Mrs. Merle Smith of the First Methodist church, Pasadena, Dr. and Mrs. Tilroe of Los Angeles, Dr. and Mrs. W. C. Buckner of the First Methodist church of Pomona, Dr. and Mrs. Charles Seitter of the First Methodist church of Redlands and Reverend J. M. Barnhart and Mrs. Barnhart of Alhambra.

The hostess was assisted by Mrs. C. M. Crist. After the luncheon the ladies repaired to the drawing room, while the gentlemen discussed conference matters.

Picnic Is Discussed
One subject of the discussion was the semi-annual all-day picnic at Pomona, next Tuesday, on which occasion all preachers of the district and their wives will meet together for a conference on church work. The subject for this meeting's consideration is Brotherhood work in the churches.

The governing rules and workable plans of the Glendale Brotherhood are famed afar, and Arthur G. Lindley, to whose interest much of its success is due, will lead the discussion at Tuesday's meeting. Dr. Crist is on the program, also. All ministers are requested to bring one or two laymen to the meeting that they may co-operate in the work of the clergymen.

Under the able leadership of Dr. Davis and with the fine support of his heads of sub-districts, this district has grown tremendously both financially and in membership.

Yard Foreman With
Canadian Pacific Now
Visiting Glendale City

D. C. Hoyt and wife, accompanied by their two sons, Newton and Gordon, are here from Windsor, Ontario, Canada, enjoying a six months' vacation.

Mr. Hoyt is yard foreman for the Canadian Pacific in Windsor, Newton is chief clerk for the same company and Gordon is with the Michigan Central. They came out through Chicago and Denver, but will go back by way of San Francisco, Portland, Seattle, Vancouver and the Canadian Pacific main line through Calgary, Winnipeg, Sudbury, Fort William and Toronto.

Mr. Hoyt says he is so delighted already with Glendale that he is seriously considering a location here.

The business situation in Canada just now is not very encouraging, Mr. Hoyt says, partly owing to the reaction from the war and much on account of the adverse exchange rate with the United States. He says it cost him 14 per cent to exchange his Canadian currency into American money.

The annoying feature of this is that while the Canadian silver money is intrinsically worth far more than ours it will not pass here for anywhere near its face value.

A general readjustment, internationally, of business and the adoption of a world standard money unit will be necessary to bring about renewed prosperity, is his idea.

The Hoyts are greatly enjoying this California winter, during which they can motor to the many points of interest so easily reached over our magnificent highways.

WANTED: FLOAT
IN TOURNAMENTGREATER GLENDALE CLUB AND
CHAMBER OF COMMERCE
REQUESTED TO ACT

TRUSTEES' MEETING

NUMBER OF MATTERS TAKEN
UP FOR CONSIDERATION
BY CITY OFFICIALS

Whether the city of Glendale is to be represented in the Tournament of Roses parade on New Year's day at Pasadena depends upon the action taken by the Chamber of Commerce and the Greater Glendale Improvement club.

This was made plain at the meeting of the trustees last night, when the matter of making a display was under consideration. It developed that the city has not sufficient funds in its advertising and promotion treasury to undertake to finance a creditable float, so it was decided to request the two local organizations named to handle the matter.

At the last tournament, Glendale won one of the prizes, the float being designed under the direction of City Manager Watson and other city officials.

At Pasadena recently a banquet was held, attended by representatives of a number of southern California cities, Glendale being represented by Trustees Shaw and Bartlett and by A. T. Cowan, publisher of The Glendale Evening News.

During the course of the banquet, Trustee Bartlett was called upon for a brief talk and she stated that at this time last year Glendale had not yet decided to enter a float, but, finally, one was entered and captured a prize.

As the result of the action of the trustees last night, it is presumed that the two organizations delegated to finance and design a display will take the matter in hand and see to it that Glendale is fittingly represented at the tournament.

Other Business Before Board
Other business transacted by the city trustees last night was as follows:

The board assembled at 8:15 p. m. Present, Trustees Bartlett, Henry, Robinson and Stephenson. Absent, Trustee Shaw. In the absence of the chairman, Trustee Stephenson was appointed chairman pro tem. The (Continued on Page 7)

CLAIM GOVERNMENT RELIEF IS IMPOSSIBLE

(Special Service to Glendale Evening News)
WASHINGTON, Dec. 3.—Government relief of present conditions confronting farmers is impossible, Secretary of the Treasury Houston today told the house and senate agricultural committees. Houston was the first witness today before the joint session of the committees which are seeking relief for the farmers who have been hit by the rapidly falling prices of their products. At the same time the secretary predicted a drop in retail prices soon. He said the retail dealers had been holding out against lowering prices but would not be able to do so much longer. Houston declared government agents have done everything that can be done to help the farmers. He said he advised farmers while he was secretary of agriculture that a drop in prices was coming and urged them to prepare for it. He denied emphatically that farmers are suffering from lack of credit.

EXPECT 19 INDICTMENTS IN LIQUOR RING

(Special Service to Glendale Evening News)
LOS ANGELES, Dec. 3.—Nineteen persons were expected to be indicted by the federal grand jury today in connection with the conspiracy to violate prohibition laws. A new angle today in the liquor scandal was an inquiry into operations of companies manufacturing medicinal tonics, alleged to contain over one-half of one per cent alcohol. These "tonics" are declared to have been sold for beverage purposes. Motion picture stars, among them Pauline Frederick, will be called, it is reported, as witnesses before the grand jury this afternoon to testify concerning purchases of liquor from wholesale agents.

INVITATION FROM THE LEAGUE OF NATIONS

(Special Service to Glendale Evening News)
WASHINGTON, Dec. 3.—An invitation from the League of Nations for United States participation in the liberation of disarmament was received at the state department today. The invitation said that the league ordered a representative of the United States to "sit in a consultative capacity on the permanent military, naval and air commission."

RECEPTION FOR MRS. MAC SWINEY DELAYED

(Special Service to Glendale Evening News)
NEW YORK, Dec. 3.—The reception planned for Mrs. Muriel MacSwiney, widow of the late Lord Mayor of Cork, was delayed until tomorrow when a wireless from the White Star lines Celtic, aboard which Mrs. MacSwiney is approaching New York, stated the ship would not arrive at quarantine until 5 p. m. Officials of the line said the vessel would dock at 10 a. m. tomorrow.

HUGE THEFT FROM AMERICAN EXPRESS CO.

(Special Service to Glendale Evening News)
ST. LOUIS, Mo., Dec. 3.—The American Express company today announced the theft of between \$60,000 and \$100,000 in bonds consigned by Washington, D. C., banks to their representatives here. Police are searching for Arthur Smith, who disappeared from his position with the American Express company shortly after the bonds disappeared.

CANDIDATE FOR CONGRESS IN 9TH DISTRICT

(Special Service to Glendale Evening News)
PASADENA, Dec. 3.—John J. Hamilton, city commissioner and a former chairman of the Los Angeles county board of supervisors, today announced his candidacy for congress, to succeed Chas. H. Randall, in place of the late Charles F. Van de Water. Strengthening of the Volstead act, curbing of profits and reclamation and conservation are features of his platform.

REGISTERED MAIL IS STOLEN BY BANDITS

(Special Service to Glendale Evening News)
MINNEAPOLIS, Minn., Dec. 3.—Bandits robbed a mail train on the Chicago, Milwaukee & St. Paul road early today, escaping with one hundred pouches of registered mail, valued at approximately \$10,000. The robbery occurred while the train was en route from Aberdeen.

IMPRISON CASHIER IN VAULT; STEAL FUNDS

(Special Service to Glendale Evening News)
MUNCIE, Ind., Dec. 3.—Six bandits today held up the Ridgeville state bank, imprisoned the cashier and several other employees in a vault, and escaped with about \$60,000 in cash and an undetermined amount of Liberty bonds and securities.

Three Million Dollar
Mark in Construction
Passed Here Thursday

The three-million dollar mark in building permits was passed yesterday. As stated elsewhere in this issue, the total up to and including Nov. 30 lacked but a little over \$18,000 of three millions for the year so far.

The first two days of December yielded \$20,550, bringing the total for the year, so far, to \$3,002,568.

Probably two and a half millions of this sum have been spent for homes, of which fully 1000 were provided in the time named, many of them quite small, as the average of \$2500 per home shows.

In every case where an accurate record of the cost of home and surroundings was kept the cost was far more than, sometimes double the amount of, the permit, hence it is undoubtedly a fact that between three and four millions have actually been spent for homes in Glendale so far this year, and probably near half a million in the immediate suburbs, such as Casa Verdugo and North Glendale.

There were 105 new water connections made by the Public Service Department during November, bringing the total in force to 4,727, and 134 light connections, making the total to date 5,159.

STATEMENT BY
CITY MANAGERGIVES NUMBER OF REASONS
WHY CHARTER SHOULD BE
USED IN GLENDALE

ASKS COMPTROLLER

MORE COMPLETE CONTROL IN
REGARD TO DISBURSEMENTS
IS ONE SUGGESTION

Invited by the board of freeholders, elected to draft a charter for the city of Glendale, to address the members and make suggestions relative to the framing of the proposed governing measure, T. W. Watson, city manager, prepared a formal statement which he submitted at the last session.

In addition to this, City Manager Watson, with the aid of charts, addressed the board and made plain his reasons for favoring a charter form of government. During the course of his statement, he particularly urged that provision be made for a comptroller, whose duty it would be to see that all disbursements are in accordance with appropriations; that no disbursements be made except that the trustees have previously provided funds for the purpose; that the authority of the comptroller should extend to the point of purchase.

In view of the fact that the voters of the city will be called upon in a comparatively short time to receive or reject the charter, The Evening News publishes in full City Manager Watson's statement as prepared by him for the freeholders. The charts referred to in the statement have been printed in a reduced form and may be had on application to the city manager. Here is his statement:

To the board of freeholders, city of Glendale:—For the following and many other reasons that will no doubt occur to your board as you consider a freeholders charter for the city of Glendale, we are glad for this opportunity to discuss with you at your invitation some matters pertaining to the framing of this charter:

1. That the people of Glendale may take advantage of the privilege given them under the state constitution.

(Continued on Page Eleven, Second Section)

Harding Delayed

ABOARD THE STEAMSHIP PASTORES, Dec. 3.—Heavy head winds so delayed the progress today of the Pastores, on which President-elect Harding is voyaging to Norfolk, that it was believed the ship could not reach its destination before Saturday afternoon.

EXACT TOTAL IS \$2,981,918 AND OF
THIS \$333,241 IS CALLED FOR BY
201 PERMITS ISSUED IN NOVEMBERCity of Glendale Continues to Lead Entire Nation,
in Proportion to Its Size; Complete List of
Permits Issued During Month Given

Practically \$3,000,000 in building done in Glendale in the past eleven months!

Two hundred and one building permits, totaling \$333,241, issued during the month of November, bringing the total for the eleven months to \$2,981,918.

November kept up the great record Glendale is making in building permits, exceeding October by over \$7000, and this city can still claim to be the fastest growing municipality in proportion to size, in the entire nation, though Long Beach does try to wrest the honor from us. But while the beach city has four times our population, it had only three and one-half times the valuation in permits. There were 105 places of residence included in the 201 permits issued and doubtless many of the garages built will be used to live in until residences can be erected.

The total for the first eleven months of the year 1920 is only \$18,082 less than three millions of dollars' worth, certainly a remarkable record for a city of less than 20,000 population. The highest number of places of residence started in one month was 155. The average for the eleven months has been 100 or more, so that Glendale has at this date accommodations for at least 1000 more families than it had on January 1, 1920.

The Fred L. Meneely Company's buildings—a \$13,500 factory, two other buildings at \$1000 each, and a residence at \$1500 are but a starter on what is to be a manufacturing plant worth well up toward \$100,000. The first unit of the Harrower Laboratory plant, an \$8500 building, Mrs. McEnany's and Harry Blumenthal's business houses, at \$7500 and \$5000, respectively, show the city's business progress.

Residences to cost \$9000, \$8000, \$6500, \$6000, \$5500, \$5000 and thereabouts show that there is no lack of artistic and beautiful homes coming on, and there are many others, smaller, but most attractive in design, costing \$4500, \$4000 and on down. Truly, Glendale merits its name as the "City of Homes."

The following is a complete list of the permits issued during the month of November, compiled by The Evening News:

Fred L. Meneely Co., factory building, Vine Ave. and S. P. tracks	13,500	Louise E. Joseph, 7 rooms and garage, 319 W. Lexington drive	6,500
H. A. McPherson, 10 rooms and garage, 607 N. Central Ave.	9,000	Otto A. Ole, 6 rooms and garage, 469 W. California Ave.	6,500
Dr. H. R. Harrower, laboratory building, 920 E. Broadway	8,500	Arthur Haines, 6 rooms, 532 N. Jackson	6,000
Nathan Rigdon, 8 rooms and garage, 231 W. Doran	8,000	H. A. Michel, 5 rooms and garage, 518 N. Isabel	5,500
Mrs. James B. McEnany, 5-room business building, 103-105-107-109-111 W. Broadway	7,500	J. S. Thompson, 6 rooms and garage, 400 W. Broadway	5,000
		Harry Blumenthal, business building, 400 W. Broadway	(Continued on Page 8)

CLUB HOSTESS

MRS. CHARLOTTE MCKEE HAS
NIMBLE FINGERS CLUB AT
HER HOME TUESDAY

*Mrs. Charlotte McKee, of 120 Chestnut street, was hostess to the Nimble Fingers club last Tuesday evening.

It was a busy session, as a result of which a beautiful comforter in necktie design is finished and ready for active service or lodgment in some hopeful's "hope chest." Other work in preparation for the Christmas sale was accomplished and final plans made.

Mrs. Susie Peck and Misses Mildred McKee and Marjorie Ganyon assisted the hostess in entertaining and in serving the refreshments.

The sale to take place December 15, in Hurtt's hall, East Broadway, will be in connection with a social—a real old-time, "get-together-and-get-acquainted" affair to which everybody is cordially invited.

There will be several pretty, warm comforters that Mrs. Gertrude Griffin will dispose of, and Mrs. Queen Danner will have many attractive rag rugs.

Among the pretty aprons that Mrs. Eva Pixley will display are two which she just received from two Daughters of Veterans in Indiana. Mrs. Pearl Moore will have other pretty articles that will make splendid gifts.

There will be dancing and everybody will have a good time. Mrs. Susie Peck will serve excellent hot coffee free. Misses Mildred McKee and Ruth Spafford will have charge of toothsome home-made cakes, and Mrs. Winona Crawford will supply dainty, appetizing sandwiches.

AT HOSPITAL

C. J. KELLENBERGER IS IN
PRIVATE INSTITUTION AS
RESULT OF INJURIES

C. J. Kellenberger of 350 West Harvard street is now at Dr. French's private hospital in Los Angeles. It will be remembered that about a year ago Mr. Kellenberger was injured while working for the Brunton Studios. The Fairbanks company was filming a scene at what was then the Tropic lumber yards. Mr. Kellenberger was in charge of the apparatus, which was to manufacture a storm for the picture. Stopping down in the dark to pick up an object, Mr. Kellenberger came too close to the aeroplane propeller and was struck on the head by one of the blades. The speech center of his brain was found to be shattered, and portions of it were removed. A small bone from his limb was used to replace a portion of the skull, which had been splintered. It was thought that Mr. Kellenberger would never be able to speak, but he is now able to talk enough to make himself understood, although he had to learn to speak all over again. He will be under observation at Dr. French's hospital for about two months.

WIFE TELLS ON HUSBAND

CHATTANOOGA, Tenn.—Because her husband, Charles Bruce, a farmer of Campbell county, had neglected her, his wife went on the stand as a witness against him in the federal court and gave testimony which resulted in his sentence to the Atlanta penitentiary for a year and a day for distilling.

ANNOUNCEMENTS

REPUBLICAN CLUB

Members of the Glendale Republican club are requested to meet at the residence of J. H. Braly, 505 North Brand boulevard, Monday, December 6, 1920, at 7:30 p. m., for the purpose of naming a candidate for Congress from the Ninth District to succeed Chas. D. Van de Water, Congressman-elect, who recently came to his death by accident.

NOTICE OF SALE OF INTEREST

Notice is hereby given that I have sold my interest in the Glendale Auto Painting Co., 321 West Los Feliz road, to T. Sherman and M. S. Feldman who assume all indebtedness of the old firm.

NOTICE OF PUBLIC WORK

Public notice is hereby given that the Board of Trustees of the City of Glendale, on the 26th day of November, 1920, did at its meeting on said day, adopt a resolution of intention No. 1144 to order the following improvement to be made, to-wit:

Section 1. That all of that certain ten (10) foot alley in Tract No. 3196, as per map recorded in Book 33, Page 38 of Maps, Records of Los Angeles County, California, be closed up, vacated and abandoned for street and alley purposes.

Section 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is situated in the City of Glendale, County of Los Angeles, State of California, and is more particularly described as follows: to-wit: Beginning at the most southerly corner of Lot 4, Tract No. 3196, as per map recorded in Book 33, Page 38, of Maps, Records of Los Angeles County, California; thence northwesterly along the southwesterly lines of Lots 4, 3, 2, and 1 of said Tract 3196 to the most westerly corner of said Lot 1; thence in a direct line across said alley to the most northerly corner of Lot 6 of said Tract 3196; thence along the northwesterly lines of Lots 6 and 5 of said Tract 3196, to the most easterly corner of said Lot 5; thence in a direct line across aforementioned alley to point of beginning.

Section 3. The district to be assessed for the expenses of said improvement is described in, and reference is hereby made to said Resolution of Intention No. 1144 for further particulars of said work.

City Manager and ex-Officio Street Superintendent of the City of Glendale.

PERSONALS

J. F. Mitchell of Detroit, Michigan,
is visiting Mr. and Mrs. James Mc-
Coy of 218 North Maryland avenue.

Dr. and Mrs. H. V. Brown and
family have sold their property at
337 North Central avenue and moved
to 144 North Orange street.

Wm. M. Hohler of Muncie, Ind.,
is the house guest of Mr. and
Mrs. J. H. Murphy of 117 East Aca-
cia avenue. He will spend the win-
ter here.

The friends of Mr. and Mrs. A. N.
Allis, of 471 Hawthorne street, will
be sorry to learn that Mrs. Allis is
in a serious condition at her home
as the result of a paralytic stroke
which she suffered yesterday.

Mrs. J. H. Murphy of 117 East
Acacia avenue entertained about
thirty out-of-town friends at cards
Wednesday evening. The guests
were from Los Angeles and Pasa-
dena.

Miss Evelyn Taylor, of Toronto,
Canada, is the house guest of Mr.
and Mrs. John King, of 315 West
Lomita. Miss Taylor will remain in
Glendale until King Winter is ousted
from her Canadian home town.

The Caswell Grocery will open to-
morrow in their new location, 111
East Broadway, across the street
from their former location. A brand
new feature will be the installation
of a fruit and vegetable and dairy
products market.

Mrs. A. W. Colon, who has been
visiting her mother in New York
City, returned last evening. She re-
sides at 356 West Colorado street.
Mr. Colon is employed in the city
engineer's office. Mrs. Colon was
accompanied by her son.

The picture show benefit held at
the Palace Grand Theatre two eve-
nings recently for the athletic de-
partment of the Intermediate school
netted \$160, while the one held for
the Doran street P.T. A. netted
about \$50.

O. F. Meyer is to be the agent
for the Oldsmobile automobiles for
the Glendale and Eagle Rock dis-
tricts. His headquarters will be at
721 East Broadway, at what is
known as the Broadway garage. Mr.
Meyer is a newcomer to Glendale,
formerly being a resident of Fair-
mont, Minnesota.

Have you seen that wonderful cake
at the Tuesday Afternoon Club ba-
zaar? The one with the beautiful
morning glories and garland decora-
tions? This work of art was made
by a local woman who is gifted with
the ability of doing this artistic and
unusual kind of work. It is a very
large, white pound cake first covered
with white frosting. The decora-
tions are of lace work and garlands
worked in the white icing, with
multi-colored morning glories, some
of them are blue, pink, lavender and
others of mixed coloring, with the
delicate green foliage, which really
seem to be growing. The lady who
deserves so much credit for her skill,
as well as for her generosity
in donating this immense
cake, is Mrs. Bert P. Woodard
of 214 North Maryland avenue. She
is said to be the only one in Glen-
dale who is known to do this kind of
work.

Protect Your Home!

YOUR home and its
contents may represent
your largest single invest-
ment. Yet there it stands,
summer and winter, year
in and year out, often un-
guarded, always exposed to
the elements.

Give your home the same
protection you give other,
less valuable property—

Silk Socks, black, cordovan, grey,
\$1.00 pair.

Well Known Here

"Behold My Wife," the screen
adaptation of a famous novel by Sir
Gilbert Parker, appears on the pro-
gram of the Palace Grand today for
the last time. This picture is espe-
cially interesting to Glendale resi-
dents from the fact that the pro-
ducer, George Melford, is a former
Glendale resident. Mr. Melford was
the first motion picture producer to
portray the scenic beauties of Glen-
dale on the silver screen. He made
a number of pictures here several
years ago and is well known here.
He has risen high in his profession
in the years that have passed since
he lived here, and Glendale friends
have watched his career with inter-
est.

"Behold My Wife" is said to be a
drama of sustained and powerful in-
terest, one of Mr. Melford's best pro-
ductions.

Do You Fox Trot?

The Saturday night dances under
the management of Cal Wainer in
the K. of P. hall grow in popularity.
You just can't keep your feet still
when Sunny's orchestra gets busy.
There is some special attraction eve-
ry night that helps to draw the
crowds and create an atmosphere of
jollity. Saturday the management is
offering a cash prize for the best fox
trot and it is said there are many
who will compete.

HAD HISTORY

OAKVILLE QUIET LAD, FAMOUS
CHAMPION BULL, IS DEAD,
AGED 14 YEARS

Oakville Quiet Lad, grand champ-
ion Aberdeen-Angus bull at the 1912
International Live Stock exposition,
died in Iowa a few days ago at four-
teen years of age. He was a remark-
able sire in many ways, but especial-
ly so in demonstrating what a great
sire will do in a small pure-bred herd
of a beginner in pure-bred livestock.

The records of the American Aber-
deen-Angus Breeders' association
show that 219 pure-bred bulls and
heifers were recorded as his get since
1911, and probably there were many
more bulls and steers that were not
recorded in the early days of this
little struggling herd in Iowa when
pure-breds were a drug on the mar-
ket at anything over beef prices.

Among them are such sons as Idol-
mere, supreme champion of the breed
at the 1919 International Live Stock
exposition; U. of C. Jock, grand
champion steer at the Panama-Paci-
fic exposition; U. of C. Jock Third,
champion pure-bred Aberdeen-Angus
steer at the 1919 international, and
many prize winners at the great
shows at Chicago for the past five
or six years. His sons head leading
herds in both Canada and the United
States, and his grandsons have gone
to South America to carry on for the
"better sire" movement in newer cat-
tle empires being built on that con-
tinent.

Doubted by Neighbors

When Otto Battles bought his first
pure-bred Aberdeen-Angus he was a
poor farmer whose local elevator
owner wouldn't sell him a load of
corn to feed his bonnie "doddies" for
fear he could not make good.

Those were the days when a farm-
er who spent over \$50 for an animal
with a pedigree was looked upon as
not being quite responsible and the
neighbors held informal discussions
as to what was best to do with the
young chaps who insisted on going
to the bow-wows via the pure-bred
livestock route.

Now the Battles herd is one of the
famed herds of the world. Its show
herds have been seen at the fairs in
all parts of the United States and
Canada, and the sales of pure-bred
sires from his herd are made in all
sections of North America, both by
mail and by personal inspection. The
pure-bred sire put this farmer over
the grade and his great pure-bred
sire, used on pure-bred Aberdeen-
Angus cows, made him famous and
at least well off in these days of
large fortunes.

Aid for Building

B. F. Bourne is a great Glendale
booster, but he still has a mighty
warm spot in his heart for little old
Eagle Rock, where he spent several
years of his life and where he has
considerable property interests as
well as local ties. He happens to be
Worthy Patron of the Eastern Star
chapter over there and now that they
have determined upon building a hall
of their own he is lending all the
aid in his power. On mentioning the
matter to his next door neighbor,
Paul Jones of 413 East Elk avenue,
the latter at once volunteered to lead
off in the good work by donating the
services of himself and his fifty-piece
Hawaiian string orchestra for an
evening of music on December 18.
With such a start as this Mr. Bourne
is sure the project of raising the
money for the building of the new
hall is bound to succeed.

SHOW INCREASE

BALTIMORE NEGRO POPULATION
MAKES GROWTH, ACCORDING
TO CENSUS REPORT

The negro population of Baltimore
is 108,290, the census bureau has an-
nounced. The white population is
625,074.

The increase of the negro popula-
tion since 1910 was 23,641, or 27.9
per cent, while the increase of whites
was 151,687, or 32 per cent.

The negro population of Cincinnati
was announced by the bureau as
29,636, an increase of 9987, or 50.9
per cent in the last decade. The to-
tal white population was 371,540, an
increase of 27,621, or 8 per cent.

The negro population of Louisville
decreased 404, or one-tenth of 1 per
cent during the decade, the negroes
in the city this year totaling 40,118.
The white population was 194,737,
an increase of 11,347, or 6.2 per
cent.

STATE MAY BUY PUBLIC PARK

JEFFERSON CITY, Kan.—A
proposition was placed before the
governor today for the purchase by
the state of a tract of 3,030 acres
of land in Camden county to be con-
verted into a state game and fish
preserve and a public park for the
state at a cost of \$60,200. The land
belongs to the estate of J. M. Sny-
der of Kansas City. It is unim-
proved and it is said that the timber
alone is worth \$100,000. The tract
does not include what is known as
the Hahatonko Springs tract, em-
bracing 2,130 acres, but the state is
tendered an option on the latter for
\$240,000, which would include the
springs and all the buildings and
improvements.

The Basket Grocery, 108 East
Broadway, will formally open their
new meat market tomorrow.

Her Gift

Things that she can use about the home—that tend to make the
housework easier; these are the kind of gifts that are appreciated by
a woman—gifts for which she is thankful every day in the year.

This is pre-eminently a store of women's gifts—buy her gift here

Enthusiasm Shown

The wonder-goose that the ladies
of the Tuesday Afternoon club have
stuffed is likely to turn out to be
"the goose that laid the golden egg,"
for she is full to the neck. To be
exact, she holds 3000 gifts! All you
have to do is feed her a bit of money
and she'll bestow upon you a gift.

The bazaar is in full swing as
we go to press; the Masonic temple
where it is held is a bower of beauty
and no doubt many Glendale citizens
impelled by a sense of civic pride to
help the bazaar (since the proceeds
go to the building of the new club
house, which will certainly be an as-
set to Glendale) as well as by the
desire to get their Christmas shop-
ping dispatched so easily, will give
the bazaar their generous patronage.
The booths are beautiful and there
is a large assortment of lovely arti-
cles. In every way the bazaar does
credit to club members who have
worked so hard, under the able di-
rection of Mrs. Charles Temple, vice
president of the club and chairman
of ways and means.

Strong tobacco smoke blown into
glass cases containing small pieces
of thin paper soaked in germ-cul-
tures such as the bacilli of cholera,
influenza, diphtheria, typhoid fever
and meningitis proved that tobacco
smoke can affect only the weakest
germs and then only after long ex-
posure, the experiment showing no
effect on the typhoid and diphtheria
germs.

Yellowstone Park entertained 79,
777 tourists during the 1920 season.

STRUCK BY THREE AUTOS
BRIDGEWATER, Mass.—John J. Girard was left lying prostrate on Summer street after he had been struck by three automobiles, the drivers of which all sped away after striking the man. He was knocked to the side of the road by the first machine and was then struck by two others which followed close behind. He was removed to the state farm hospital.

STREET OPENING

COMMERCIAL BOULEVARD WILL
CONNECT BROADWAY AND
SAN FERNANDO ROAD

(Continued from Page 1)
street was filed with the board and the names of the signers read. Chairman Stephenson then declared the meeting open for a discussion of the project.

A number of brief talks were made in favor of opening the thoroughfare and, too, protestants were heard. Also, several liberally signed new protests to the ordinance were announced as being on file. But at a previous meeting of the board, the protest against the project had been overruled, hence the legal time for filing protests had expired.

It was explained that two ordinances were before the board—one for the opening of the street, the other abandoning the proceedings. The delegation favoring the improvement, known as the Greater Glendale Improvement club, presented facts and figures for the measure; the opposition urged the abandoning measure be adopted. The discussion lasted for an hour and a half.

Use of Other Streets
During the discussion, E. U. Emery, Jr., favoring the opening of Commercial street, pointed out that if the thoroughfare was opened, all traffic off the San Fernando road seeking entrance into Glendale need not use West Broadway. He declared that, besides Broadway, Wilson, Salem and California streets might be used.

It was this point that caused Trustee Stephenson, who announced he had come to the meeting with, he thought, his mind thoroughly made up, to ask that the matter be delayed another week.

"That point seems to be a strong one," he said. "It is the only new point brought out tonight. We have already heard all of the other arguments—both for and against—and I am frank to say that the point raised by Mr. Emery causes me to falter a little. I came here with my mind made up. He has raised an issue that appeals to me as warranting investigation and study. I would ask that we delay for one week to consider the merit of his suggestion of the possible use of streets besides West Broadway."

Trustee Bartlett, however, made the motion that the ordinance opening the thoroughfare be adopted and it was seconded by Trustee Robinson, who declared:

"Personally, I am not in favor of the project and I believe those of you who are now urging it will later see your mistake. But I also realize that a great majority of the business men of the community want the street opened. I am willing to bow to their judgment. I do not put myself against them; their judgment, as represented by their combined knowledge, is what causes me to say that I will, against my own judgment, vote for the measure."

The roll was then called and the ordinance opening Commercial street was passed. Trustee Stephenson voting against it because the board had not decided to grant the week's delay to permit him to examine into the merits of the point raised by Mr. Emery.

The petition was presented by D. B. Kirk and he briefly spoke in favor of the opening of the street. Frances Booth spoke against the proposition. Messrs. Huntley, E. U. Emery, Owen Emery, C. D. Lusby and others spoke in favor; and Godfrey Edwards, Mr. Butts and others opposed the proposition.

It is proposed to make Commercial street 120 feet wide. In answer to questions put during the discussion, it was stated that no estimate of the probable cost of the improvement could be given.

Their Busy Day

Mrs. George Hunter, Jr., and Mrs. M. Becker might well say that yesterday was their busy day.

The scene of their activities was the Hunter home, 1117 Melrose avenue, where, in the afternoon, they were hostesses to 30 ladies at a silver tea, and in the evening they entertained seventy guests at a whist.

Chrysanthemums, poinsettias and Cecil Brunner roses adorned the rooms where the ladies received their guests and refreshments of sandwiches, cake and coffee were served.

First prizes at the whist party were won by Mrs. J. A. Endicott and Mr. Evans, and a special prize, a live rooster, went to Mrs. Becker.

Both affairs were given for the benefit of the three-day Christmas bazaar to be given by the ladies of the Church of the Holy Family beginning December 11, and more than \$50 was netted.

Out-of-town guests were Mr. and Mrs. J. W. Lawson and daughter, Miss Edna, former Glendale residents.

The ladies report satisfactory progress on their bazaar plans, and hint at many new and mysterious features in the entertainment.

At the close of the whist party last night, the young people took up the rugs and finished the evening with dancing. The auctioning of the two cakes left caused much merriment and added to the fund.

Plans for a paper conservation campaign to avoid waste and conserve scraps of paper were made at the opening session of the American Paper and Pulp association's convention recently held in Chicago.

JAPAN'S VIEW

EXPRESSION IS GIVEN UPON
CHINESE SITUATION BY
JAPANESE OFFICIAL

TOKIO, Japan—That the absence of any central figure in the Chinese situation makes it very difficult to bring about a compromise between the north and the south, and thus to effect the political unification of the country, was the opinion expressed by Count Uchida, Japan's foreign minister, in an interview with the Taisho Nichinichi.

The statesman continued: "The appearance of a central figure in China, with whom Japan and the other powers may confer in regard to the consummation of the proposed loan consortium and other important matters would be of great benefit to China in facilitating the progress of affairs which are at present blocking the way to establishing a stable unified government, so that the powers may deal with her more definitely and effectively than is the case at present. As matters stand now an attempt on the part of the powers to effecting a compromise between the north and south is liable to make the situation worse and increase the suspicion of outsiders. Under such circumstances it would be well nigh impossible to maintain the peace of the east, and place China on a really sound basis."

Policy of Neutrality

"The fundamental policy of Japan toward China will be one of strict neutrality, and non-interference in domestic and political strife. Japan is well aware of the fact that the mere lending of money to China will not improve matters, as it is quite possible that because of funds placed at her disposal the political struggle between the two factions may be protracted or embittered. This is the main reason that Japan has thought it advisable to refrain from lending money either to the north or south for the present. In all likelihood all funds to be advanced by the loan consortium will be used for the maintenance of the army or for political purposes, as well as for the encouragement of trade and industries. It is desirable that China should be required to negotiate loans for political purposes herself, while money loaned by the consortium should be devoted to productive purposes, so that the natural resources of the country may be developed. All things considered, the appearance of a central figure in China with whom the powers may deal is as urgent as it is important."

ENCOURAGING EMIGRATION

MEXICO CITY—Germany is said to be encouraging emigration to Mexico, but in a very quiet way. Great numbers of German immigrants are entering Mexico to engage in farming. A German colony is being formed in Chiapas. It is suspected that Germany hopes to build up great colonies in Mexico similar to those established in Brazil.

LEAGUE TEST

FINLAND AND SWEDEN DISPUTE
WILL SHOW POWERS HELD
BY GREAT COMBINE

WASHINGTON—Because of the important bearing it will have upon the league of nations controversy, the dispute between Finland and Sweden over the Aland Islands probably will figure largely in the debate in the senate when the question of American policy is brought up by the new administration.

The Aland islands case, one of the five now before the council of the league, is regarded as the most important. It will not only serve in large measure as a test of the ability of the league to settle international disputes, but will reveal the methods by which it is to go about this task and the principles upon which it purposes basing its action.

The members of the irreconcilable group in the senate are on the alert to discover in this case confirmation of the objections which they have made against the league, as it involves, more than any other of the five cases now pending, most of the points which have been brought up in the senate debate. Reports from Geneva indicate that the proponents of the league hope to demonstrate by the settlement of the Aland islands controversy its capacity as a working institution and the practicability of the ideas upon which it was founded.

Opponents Seek Club in Decision
On the other hand, if the decision of the council proves unsatisfactory, if it leads to the creation of another Alsace in the Baltic region, or if it is based upon political expediency, instead of international law, it undoubtedly will be seized upon by the opponents of the league in the senate as an illustration of the futility of attempting to keep the world's peace by such an institution as the league.

American interest in the Aland islands controversy is not confined solely to the effect the proposed settlement might have on the attitude of the United States toward the league of nations. At the request of the council of the league Judge Abraham I. Ellius was designated by President Wilson unofficially to serve as a member of the commission which is now making an investigation of the dispute.

This commission is now at Stockholm. Later it will go to the Aland islands and to Finland. Upon the results of its investigations it will base its recommendations to the council of the league for a settlement of the dispute. The American point of view, therefore, will be presented

in the preliminary deliberations even though the United States has held aloof from the league.

Similar to Fiume Case

The dispute over the Alands presents a most complex case, similar in some respects to the Fiume question, which disturbed for so long the peace of the Adriatic. On the one side are the 25,000 Swedish inhabitants of the islands who, backed by the Swedish government, ask to be permitted to decide their political future on the basis of the principle of self determination. On the other are the Finns and 375,000 Swedes of Finland preference, who insist that the islands belong to Finland. An arbitrary settlement, therefore, by the league of nations might easily create a situation which instead of preserving peace in the Baltic would produce constant disturbance.

Interest in the case in Washington centers mainly upon the methods by which the council of the league proposes to settle the Aland islands case. The fact that Finland is a small and weak nation compared to Sweden and virtually will be helpless in the event of an adverse decision, has been taken into consideration. If the council follows the old methods of political expediency and disposes of the case arbitrarily, without regard to the canons of international law, its action undoubtedly will encourage opposition to the league in the senate.

Statistics show that as cold weather approaches and work grows scarcer, the army recruiting stations do more business.

To Advertisers

The Glendale Evening News is now equipped to do stereotyping. If manufacturers are sending you mats, we can make stereotype plates from them to use in your advertisements without extra charge to you. We have subscribed to a monthly mat service which is free to our patrons also, and many have taken advantage of it this week to dress up their ads in holiday attire.

WHAT SHALL I GIVE?

THIS IS THE QUESTION THAT IS BEING ASKED UNIVERSALLY AT THIS SEASON OF THE YEAR. BELOW IS YOUR ANSWER. MAKE UP YOUR GIFT LIST EARLY AND BRING IT TO THIS STORE WHERE THERE IS AMPLE PROVISION FOR YOUR CHRISTMAS GIFT NEEDS.

A Brownie Kodak is an unending pleasure, a suitable gift for old or young.

An Enlargement of a kodak picture taken on your vacation or a snap shot of your home or of the children will be a particularly acceptable gift, inexpensive and easily sent by mail.

A Subscription to a favorite magazine will please any one and be a reminder of the giver every month in the year.

A Box of Cigars, the kind he likes, will make him smile and keep him smiling.

Christmas and New Year's Greeting Cards are here in

abundance. Why not make your selections early?

A Waterman Fountain Pen or an Eversharp Pencil are gifts that appeal to any one who writes. You won't go far wrong in giving these.

A Box of Stationery is always acceptable and has the added virtue of a gentle reminder to the recipient.

A Box of Candy or California Dates. If you have any doubt of what is suitable, give these.

Our candies are fresh and good and our Coachella Valley Dates are particularly delicious.

Perfumes, Toilet Water and Other Toilet Requisites will please her. They are practical and useful gifts.

Parisian Ivory is what she really longs for. She is so anxious to complete her dresser set.

Christmas and New Year's Greeting Cards are here in abundance. Why not make your selections early?

MEET ALL DAY

TWO HUNDRED ARE PRESENT
AND ELABORATE PROGRAM
GREATLY ENJOYED

Of unusual interest was the regular monthly all-day meeting of the Ladies' Aid and the two missionary societies held yesterday in the social hall of the First Methodist church, with an attendance of two hundred.

At the morning session, which was devoted to the business of the Ladies' Aid, final plans were made for the church bazaar to be held on next Friday and Saturday in the social hall of the church. Elaborate preparations for this Christmas sale have been made; there will be booths where all sorts of useful and beautiful things may be bought, and on Friday the ladies will serve a luncheon from eleven to one and an evening dinner from five to seven. In the evening there will be a fine program consisting of orchestral music and whistling solos by Miss Isabel Isgrigg.

The arrangements for the noon dinner yesterday were made by an efficient committee of the Ladies' Aid, under the capable leadership of Mrs. C. D. Lushy. An unusual feature of this dinner was that one table reserved by the Reverend C. R. Norton for special guests, to celebrate his birthday, was without its intended host, Dr. C. M. Crist supplying the place for Reverend Norton.

Mr. Norton is the minister who organized the First Methodist church of Glendale, seventeen years ago. He had intended celebrating his birthday in his home, inviting a number of his brother ministers who were friends in his former Iowa home, but are now, like himself, residing in California. Illness in his home caused him to change the scene of his celebration to the social hall of the church, but this illness continuing, he was detained at home. Dr. Crist taking his place as host. Guests of Reverend Norton's party included Dr. J. C. Kendrick of Long Beach, who officiated at Mr. Norton's marriage back in the old Iowa home; Dr. A. V. Kendrick, also of Long Beach; Reverend C. V. Cowan of Pasadena, Dr. W. G. Wilson of Los Angeles, and Dr. C. M. Crist of Glendale. His guests sent to Mr. Norton a beautiful gift, a Pyrex casserole in a silver stand. They also sent him resolutions conveying their love and sympathy.

Class Sends Birthday Cake

A large, beautiful birthday cake was sent to Mr. Norton by the J. O. C. class, whose former teacher he was.

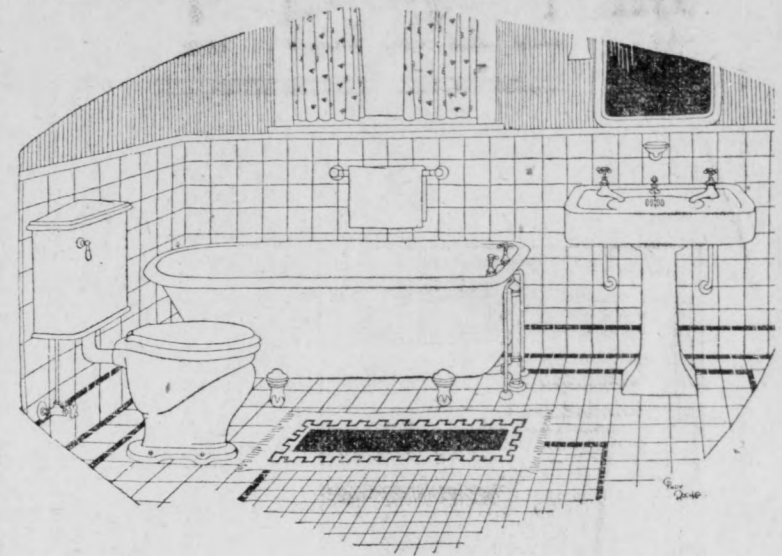

The afternoon session was devoted to the business of the missionary societies. To the home missionary society, Mrs. Crist gave an interesting talk on the David and Margaret Home at La Verne, and Mrs. Jones, of Casa Verdugo, entertained with readings. Mrs. Hughes, conference secretary of Home Guards and Mothers' Jewels, gave an inspiring talk to mothers. Beautiful solos were given in pleasing manner by Mrs. Thomas Meigher and Miss Isabel Isgrigg, accompanied by Mrs. Harriet Randall.

The woman's foreign missionary society then followed. This society is preparing a box for the Barnes work.

In China 20,000,000 persons are being fed on a famine ration by relief societies.

A pound of sugar or butter in Russia costs a month's pay of an ordinary workman.

GRIFFIN, the Plumber

GOOD PLUMBING

It means more to your health, happiness and comfort than any other fixture in your home.

CITY TRUSTEES

MANY MATTERS TAKEN UNDER
CONSIDERATION; ROUTINE
WORK LAST NIGHT

(Continued from Page 1)
minutes of the meeting of November 26 were read and approved.

Mr. Kellogg, representing The Pasadena Post, addressed the board, stating his intention to publish a book in connection with the coming Tournament of Roses, Pasadena, which in his opinion will be a valuable advertising medium and soliciting advertising support from the city of Glendale. He stated that an advertisement such as he considered the city of Glendale would require will cost \$300. The chairman stated that the matter is in the hands of the city manager, who will make a report in regard to same at the next meeting of the board.

Communication was read from M. Eshelman complaining of nuisances committed by the numerous dogs in his neighborhood; referred to the city manager. Communication was read from the zoning committee giving results of their work and was referred to the committee of the whole.

Site for Civic Center

Communication was read from Doner, Hemenway & Burn offering an option to the city for civic center on the southwest corner of Brand and Wilson avenue, which was referred to the committee having charge of this matter.

The request of Mrs. Mary McEnany for permission to place a cesspool in the alley or parkway back of the Rudy building, being approved by the city manager, was on motion of Trustee Henry, granted.

Trustee Robinson presented an ordinance amending section 2 of the salary ordinance No. 382, which was read and laid over.

The city manager presented a communication stating that the completion of the new boulevard extending from Second street and Lake Shore avenue, Los Angeles, to Glendale by way of Ivanhoe bridge and Brand boulevard necessitates an improvement of the crossing of the Southern Pacific at Brand boulevard, and recommended that the matter be taken up with the railroad company and the city engineer be instructed to prepare plans for said improvement. On motion of Trustee Robinson the recommendation was approved and the city engineer instructed to prepare plans in accordance with same.

The city manager made a report of sewage disposal in Verdugo canyon, accompanied by a map of a district proposed to be established. On motion of Trustee Robinson outlining the district was approved as set forth upon the map.

In regard to the application of John Bretz, Jr., for electric power to operate a pumping plant on the Thom ranch, the city manager reported as follows: That the cost of installation for furnishing this power would be about \$1800, and recommended that the applicant advance to the city this cost and that fifty per cent of the cost of power used by the applicant be refunded to him until the investment is returned, provided that no such returns shall be made after two years from the installation of the service, and that if the applicant discontinue the use of power the line may be taken down and the value thereof be returned to the applicant, providing therefore that in this event all refunds paid the applicant to that date will be deducted from the salvage value of the line. Referred to the committee of the whole.

The city manager reported in regard to the removal of trees, favoring the applications of Edwards & Wilkey Co. and Mrs. A. C. Johnston. On motion of Trustee Henry request for removal was granted as recommended.

Reports on Conference

The city manager reported in regard to conference held with the representatives of Los Angeles in regard to the proposed joint sewer proposition, that the Los Angeles annexation committee has begun to show some activity in regard to the matter which somewhat complicates the situation.

The demands were presented and referred to the finance committee. Later the finance committee reported back the demands approved and on motion of Trustee Bartlett, warrants ordered to be issued in payment of same, on roll call vote, all voting "aye."

The report of the city recorder for the month of November was presented and ordered to be filed.

The engineer of the public service department presented specifications for the thirty-inch pipe line on Glendale avenue, and on motion of Trustee Robinson, same were approved. He also presented a written estimate of the cost of this improvement which is fixed at \$47,500 for the three-sixteenths inch steel pipe, thirty inches in diameter.

Manager of the public service department presented a contract to be entered into with Charles W. Kent and Son for the erection and completion of an addition to pumping station on San Fernando road. On motion of Trustee Henry, contract was approved and the president of the board and the clerk authorized to sign same in behalf of the city.

Trustee Henry presented an ordinance which was read and laid over declaring the intention of the board of trustees to order the widening of Los Feliz road. On motion of Trustee Henry the city attorney was authorized to secure from the title company a list of defendants for proceedings for the opening of Con-

NAVAL RESERVES

OPPORTUNITY IS GIVEN TO
SPEND WEEK-ENDS ON ONE
OF U. S. WARSHIPS

Naval reservists in Los Angeles and vicinity will be interested in knowing that they have an opportunity to spend an occasional week-end on one of Uncle Sam's war vessels, taking short cruises to Catalina, San Diego, Santa Barbara and farther as opportunity presents. According to Commander Woodbine of the Naval Reserve, who is in charge of the reserves in this district and who has an office with the local navy recruiting office, the navy department is taking a renewed interest in the naval reserve and has assigned to this district two Ford Eagle boats. It is intended that these shall be stationed at San Pedro so that the reserves of this district can get to them with the least possible difficulty.

The present plan is that reserves shall be organized into divisions and that the divisions will take the vessels out in turn. Service performed under this plan will count towards the service necessary for confirmation and confirmed retainer pay. Altogether it furnishes an opportunity for healthful and instructive recreation that could be obtained nowhere else. Joining one of these divisions does not mean that its members will be absolutely obligated to perform certain duty at stated intervals, but only means that they signify their willingness to go with their division whenever their business or other duty does not prevent.

One of these divisions is commanded by Lieutenant (J. G.) A. G. Davenport and any naval reserves, officers or men who are interested in the organization should communicate with any of the following officers of the division:

Lieutenant (J. G.) A. G. Davenport, 403 South Hill St. Phone 10745. Residence 1243 South Glendale Ave., Glendale. Phone Glen. 381-J.

Ensign H. A. Keithly, 416 Tajo Bldg. Phone 13127.

Ensign E. R. Beal, residence 606 Milan Ave., South Pasadena. Phone 351692, or 403 South Hill St., phone 10745.

Ensign Oscar Carl Sattinger, residence 4606 Franklin Ave. Phone 59852, or L. A. Title Ins. Co., phone 60611.

Ensign Gordon P. Felts, 1835 North Argyle Ave. Phone 579596, or Chambers & Felts, 228 South Brand Blvd., Glendale, phone Glen. 1320.

FINE PROGRAM

EXCELLENT FEATURES ARE
PRESENTED AT MEETING
OF COLORADO P. T. A.

Whoever it was in the Colorado P. T. A. that thought of the plan to have the social hour and the refreshments, the very first thing, before the program or the business meeting, she displayed a canny insight into the human heart. It reminds us of a school teacher we once knew who read from an intensely interesting book every morning from nine to fifteen minutes past nine. Needless to say, she had never an unnecessary tardy mark.

Features of yesterday's program, which followed the social hour, were a pleasing piano selection, "Impish Frolic," by Rebecca Brant, and an intensely interesting and instructive talk by Dr. Jessie Russell, past state president of the California P. T. A.

Dr. Russell spoke on national legislation, and outlined a number of bills before Congress in which every woman should be interested. Some of the bills she spoke of were the "Uniform Divorce Law" and "The Maternity Bill." Also the Naturalization Law, to which law an amendment is sought, providing that an American woman marrying a foreigner will not lose her citizenship. She also spoke for more and better compensation for the returned soldier boys.

Dr. Russell was the first president of the Colorado street P. T. A., also the first president of the Glendale P. T. A. federation.

A short business meeting concluded the afternoon.

TRAIN HIT SUICIDE'S BODY

ARDMORE, Ok.—James E. Lamb of Ardmore, whose mutilated body was found with a bullet wound through the heart on the tracks of the Gulf, Colorado & Santa Fe railroad, six miles south of here, died as the result of a "gunshot wound self-inflicted," according to the verdict of a coroner's jury. Lamb was a drilling contractor.

Members of Lamb's family testified at the inquest today. Mrs. Lamb said her husband "kissed the family good-by" at 4 o'clock yesterday afternoon and, asking his wife to pray for him, said, "Be sure to meet me in heaven." Lamb also asked for his revolver, according to his widow, and said as he took it: "You never can tell—I may have use for it."

merical street and the city engineer was instructed to prepare a map in connection with the same.

The chairman of the board called attention to the fact that the Pacific Electric cars are exceeding the speed limits permitted by the city ordinance and a motion of Trustee Robinson was adopted that attention of the railroad officials be called to this fact and steps be taken to enforce the ordinance.

The city clerk was granted one week's vacation to begin December 6.

ORDINANCE NO. 412 COMPLETE LIST OF BUILDING PERMITS ISSUED DURING NOVEMBER

AN ORDINANCE ORDERING THE OPENING, WIDENING, AND LAYING OUT OF COMMERCIAL STREET IN THE MANNER CONTEMPLATED IN ORDINANCE NO. 383 OF THE CITY OF GLENDALE.

THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE DO ORDAIN AS FOLLOWS:

SECTION 1. That the public interest and convenience require and the Board of Trustees of the City of Glendale hereby orders the following improvement to be made, to-wit:

That Commercial Street be opened, widened, and laid out from the north line of Broadway in a north-westerly direction across Lots 2, 3, and 4, of the Hahnes Subdivision, as per map recorded in Book 5, Page 314, Miscellaneous Records of Los Angeles County, California, and across the West Glendale Tract, as per map recorded in Book 42, Page 33, Miscellaneous Records of Los Angeles County, California, to the north-easterly line of San Fernando Road; also from the south line of Broadway to the west line of Central Avenue across Lots 2, 3, 4, 5, 6, 7, 8, and 9, of Block H of the Glendale Valley Tract as per map recorded in Book 9, Page 157 of Maps, Records of Los Angeles County, California, in the manner contemplated by Ordinance No. 384 of said City, approved and adopted on the third day of June, 1920, to which said Ordinance reference is hereby made for all particulars regarding said improvement.

SECTION 2. That the City Attorney is hereby directed to bring an action in the name of the City of Glendale in the Superior Court of the State of California in and for the County of Los Angeles for the condemnation of the property described in the Ordinance hereinbefore referred to and necessary and convenient to be taken for the improvement therein and in SECTION 1 hereof mentioned against all owners and claimants of said property or any part thereof.

SECTION 3. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published once in the Glendale Evening News, and thereupon and thereafter it shall take effect and be in full force.

Adopted and approved this 2nd day of December, 1920.
DWIGHT W. STEPHENSON,
President Pro Tem of the Board of Trustees of the City of Glendale.

J. C. SHERER,
City Clerk of the City of Glendale.

Attest:
STATE OF CALIFORNIA)
COUNTY OF LOS ANGELES) S.S.
CITY OF GLENDALE)

I, J. C. SHERER, City Clerk of the City of Glendale, do hereby certify that the foregoing ordinance was duly adopted by the Board of Trustees of the City of Glendale, State of California, and signed by the President of said Board at a regular meeting thereof held on the 2nd day of December, 1920, and that the same was passed by the following vote, to-wit:

Ayes: Bartlett, Henry, Robinson.
Noes: Stephenson.
Absent: Shaw.

J. C. SHERER,
City Clerk of the City of Glendale.

Gridley Chapter

Members of General Richard Gridley Chapter, D. A. R., and visitors met at the home of Mr. and Mrs. John Hyde Braly, 505 North Brand boulevard, yesterday afternoon. There were about thirty ladies in attendance. One of the visiting members was a direct descendant of Miles Standish and another the descendant of John and Priscilla Alden. Mrs. Braly is regent and founder of the chapter.

During the afternoon reports from various committees were heard. The chapter is collecting a mile of pennies, which will amount to over \$800, and has \$420 of this amount already. This money will be turned over to the Maternity hospital in Los Angeles, and will be for the purchase of milk and food. Canned fruits and jellies are also being donated. A report was heard on the schools for aliens in Los Angeles, especially Albion school on Avenue 19 in Los Angeles. Clothing, magazines, books, etc., are being donated for the aliens.

Mr. Braly gave a most interesting and delightful talk on "China as it is today and the prospects for the future." Refreshments of cake and tea were served and a most enjoyable afternoon was spent. There were a number of tourists who are members of other chapters in attendance at this meeting.

FINE WORKMAN

NATHAN SEARS, WHO DIED AT AGE OF 77, WAS KNOWN FOR BRICKMASON WORK

Nathan Sears, whose death was noted in yesterday's Evening News, was probably the oldest brick mason in Glendale and he worked at his trade up to within a short time of his death. He was seventy-seven years old last May and his birthday was spent in laying brick on Manley Johnson's fine residence at 365 West Doran street.

There were more than 30,000 brick in the walls of the eight-room house, besides quite a lot of tile, and Mr. Sears laid every one of them. He was a very conscientious workman and never sacrificed quality to speed. Mr. Sears had lived in the home in which he died for eight years, ever since he first came to Glendale.

Funeral services have been postponed to Monday afternoon at half past two, a telegram from a son in Mexico having been received, stating that he was en route to Glendale. Funeral arrangements are in charge of the Jewel City undertaking firm, and the service will take place at the Little Church of the Flowers.

CHURCH SUPPER

PLEASING MEETING IS HELD AT CHRISTIAN CHURCH BY VERY LARGE NUMBER

The church night supper at Central Christian Wednesday evening drew a very large crowd, nearly ninety being present to enjoy the "eats" and the fellowship. The Bible study following, led by Rev. Cole, of a part of the Book of Acts, was attended by over sixty people. C. W. Bacon conducted the prayer meeting which closed the evening's work.

SELL HOME

MR. AND MRS. NOLAN DISPOSE OF RESIDENCE PROPERTY TO C. J. LOWE

Mr. and Mrs. Nolan of 410 Stocker street have sold their home to C. J. Lowe of this city. The sale was made by the Hart Realty company.

MUCH PLEASED

CURTIS SAWYER AND FAMILY LIKE CITY; WILL ENTER HAY, GRAIN BUSINESS

Curtis Sawyer and family, who came here from Norfolk, Va., recently, and rented Perry C. Dodge's large home at 226 West Elk avenue, are very much pleased with Glendale, finding here many charms not dreamed of on the bleak Atlantic coast whence they came.

Mr. Sawyer contemplates going into the hay and grain business on rather a large scale and plans to build a home and store on North San Fernando Road next to the place owned by his brother, William W. Sawyer, formerly in the grocery business at 115 South Brand. Mr. Sawyer is now clerking in a grocery store in Los Angeles, rather than be idle.

FOR BIRTHDAY

MRS. C. C. JOHNSON IS HOSTESS AT PLEASING PARTY FOR MRS. ISABELLA JORDAN

Mrs. C. C. Johnson of 638 North Isabel street entertained in honor of Mrs. Isabella Jordan Tuesday night, the occasion being in celebration of Mrs. Jordan's birthday. Decorations were carried out in the Christmas colors. Poinsettia place cards marked the places for Mesdames Jordan, Frisbee, Danford, Clapp of Los Angeles, and the hostess.

MOTOR TO CITY

MR. AND MRS. A. F. WEBSTER IN GLENDALE FOR PURPOSE OF PACKING UP GOODS

A. F. Webster and wife drove down from Santa Barbara yesterday and are engaged in packing and selling their household goods as they can give possession of the property at 205 East Acacia, which they recently sold to Mrs. Hunt of 357 Myrtle street. They expect to return to Glendale to live before many months as they prefer this part of the state to Santa Barbara.

PUZZLING ONES

DESCRIPTION OF LOCATION IN ISSUING PERMITS CAUSES SOME HEAVY THOUGHT

Two building permits have been taken out recently which proved very puzzling when it came to describing the location of the lots on which the buildings were to be erected. These descriptions read 511 and 507 West San Fernando Road. While the general direction of this highway through Glendale is northeast and southwest at one place, it runs due east and west for the space of a long block. Singularly enough this is five blocks south of Broadway and five blocks west of Brand, so that the next house to 541 South San Fernando Road is at 511 West San Fernando Road.

Another street that presents some oddities in this respect is Gardena avenue; while its general direction is the same as that of San Fernando Road, yet it crosses South Brand at almost right angles. However, the numbers run continuously, concurrent with those on San Fernando Road, beginning with 1500 and ending in the 1900.

COMES HERE

JOHN W. COLLINS PLANS TO REMAIN IN THIS CITY AT RESIDENCE OF SON

John W. Collins is a native of old Missouri and most of his life was spent in that state, but now he is past middle age and has come to California to spend the remainder of his days, making his home with a son, James, at 532 East Acacia avenue. He raised nine children and all are yet living, but they are in five different states, three in Missouri, two in Arkansas and one each in Oklahoma, Idaho, Texas and Iowa.

LIKE GLENDALE

NORTH DAKOTA MEN PURCHASE TRAVIS PROPERTY; HOMES WILL BE ERECTED

E. T. Lee, C. A. Haas and F. W. Keat of North Dakota have purchased the Travis property at 1116 East E.M., consisting of a house and two adjoining lots. They intend to build immediately and make their homes here. These gentlemen are very enthusiastic about Glendale and state that many of their eastern friends are on their way or getting ready to come to southern California and Glendale. The Hart Realty company were the agents.

TEACHERS VISIT

INSTRUCTORS AT INTERMEDIATE SCHOOL CALL TODAY UPON LOS ANGELES SCHOOLS

No classes were held at the intermediate school today, this being visiting day. The teachers visited schools in Los Angeles. It is the custom of the school department to have the teachers, at stated intervals, visit schools in other sections to learn the way they are being conducted and to gain information of benefit to them in their work.

P. T. A. SESSION

PLEASING PROGRAM IS HELD AT CERRITOS SCHOOL BY NUMBER OF MEMBERS

The December meeting of Cerritos P.T. A. was held Thursday afternoon at the school building. After a social half hour the meeting was called to order by the president, Mrs. E. B. Moore. The music for the afternoon was furnished by Miss Leora Wilber, who played a piano solo. Mrs. Moore gave a vocal solo.

Mrs. John Robert White was present and extended to the members of the association an invitation to attend a meeting of the Glendale Federation of P.T. A. next Wednesday afternoon.

Mrs. Lillian Farmer gave a splendid practical talk on the proper diet of children. Mrs. Farmer is a charming speaker and her ready wit and snatches of humor made her talk decidedly enjoyable as well as profitable.

A. R. Coyt of Los Angeles has purchased a lot at the corner of Gilbert street and San Rafael and will commence the construction of a temporary residence. Sale was made by the Hart Realty company.

PYTHIAN MONTH

SEVERAL EVENTS PLANNED FOR ORGANIZATION; OFFICERS TO BE ELECTED SOON

December promises to be a very lively month in Pythian events. The regular meetings of this organization is bringing out a large attendance of both members and visitors.

One event of interest which is scheduled for the near future is the visit to Glendale by Van Nuys chapter members. They will be the guests of honor and will confer the knights' rank. Officers for 1921 will also be elected. An unusual program of entertainment has been planned, which includes a "musical mystery" and also a lunch, and all Pythians know what that means.

During the latter part of the month the annual Christmas entertainment for the children and grown-ups will be given.

METHODS WIN

S. BERMAN, TAILOR TO MEN, WILL SOON CELEBRATE TENTH ANNIVERSARY

Tailors come and tailors go; but S. Berman goes on making suits for Glendale men. Mr. Berman will soon celebrate the tenth anniversary of his business life in Glendale. It is significant that he has remained here so long. To keep on doing business at the same place year after year, a man must establish a reputation for honesty and integrity and loyalty to the home city and this Mr. Berman has done. He learned long ago that good work is the best advertising and he has profited by his experience.

Mr. Berman is a first-class tailor, one who knows how to do the little things that mean the difference between poor work and good work, and he refuses to show his customers anything but good fabrics. Berman is one of the kind of business men who help to give a city a good name.

WOMEN HELP

FIGURES SHOW JUST HOW BIG PART THEY PAY IN TAX PAYMENTS ON INCOME

Women's part in carrying the nation's tax load, as indicated by revenue figures, reveals that they are paying into the treasury on a basis of net incomes totaling \$1,064,000,000. This amount, according to detailed figures of 1918 returns, applies only to single women who are supporting themselves or relatives, from their own earnings.

The indicated earnings of women are still further increased if returns filed by wives, entirely apart from husbands' returns, are considered. Wives are shown to have net incomes amounting to one-third of a billion dollars.

Thus women pay into the treasury on a basis of about one-tenth the total revenues collected, although they constitute only about one-eighth of the 5,000,000 who made returns in 1918.

Officials stated women taxpayers include largely wage earners, although the lists include women of wealth.

SHIP JAPANESE TO U. S.

TOKIO—The Yamato Shimbun announced that the police have discovered a stowaway agency engaged in surreptitiously shipping emigrants to the United States in contravention to the "gentleman's agreement" between Japan and the United States.

The agency's representatives, the newspaper says, confessed they were working in conjunction with petty officers of freighters, who allowed stowaways aboard disguised as members of the crew for a passage fee of 1800 yen.

HONOR FIRST OFFICER KILLED

NEW YORK—The picture of Lieutenant William T. Fitzsimmons of Kansas City, the first American officer killed in France after the entry of this country in the war, will be included in an exhibit depicting phases of the United States' participation in the world war. The exhibit is being prepared by the government and various welfare and patriotic organizations for presentation to France.

Mrs. Theodore Roosevelt has contributed her favorite portrait of the former president, with one of Quentin Roosevelt, who was killed in France.

The completed exhibit, which will include models of American arms and equipment, as well as miniatures of buildings and vehicles, will have an intrinsic value of \$300,000. It will be placed in the American room of the Palace of Invalides in Paris.

RENT RAISING

GLENDALE RESIDENT PROTESTS OVER INCREASE MADE IN RENTAL FOR FLAT

Lorimer Johnston, president and general director of Liana Motion Picture corporation, in a communication to The Evening News, states that he came to Glendale last April, having in mind the beauty of a comparatively small community as a place of residence, and that in being removed from the business center of Los Angeles, rentals would remain at a fairly stationary rate. But now, he claims, he is meeting with rent profiteering in Glendale.

"I came here last April," writes Mr. Johnston, "and took a four-room flat at a monthly rental of \$25, being unfurnished. On September my rent was raised \$5 a month. On December 1, I was notified that, beginning January 1, 1921, the rent would be \$50 a month. All of the other occupants of the house received the same notification.

"The explanation was that the house had been sold and the new owners, in consequence of the great price said to have been paid for the building, ordered their agent to raise the rents to return them a greater revenue.

"The owner of the property at the beginning asked \$15 a month for any of the flats, furnished or unfurnished. Prior to my coming, he had raised the other flats to \$20 and when my rent was raised to \$30, the others were raised to \$25.

"In view of the fact that all commodities are lower and getting still lower, and further, since there is the added expense of toll on the telephone and car fare for those doing business in Los Angeles, should not the rents be lowered, not raised?

"I like Glendale. We have a good city here. But I protest over this example of profiteering in rents. The people who own property should not be permitted to gamble while holding marked cards; the tenants stand absolutely no chance. Let both the property owner and the tenant have a fair chance; why not the square deal for both?"

MAKES SALE

L. ENDSLEY OF CHAFFEE MEAT MARKET SELLS HOUSE ON PATTERSON AVENUE

L. Endsley of Chaffee's meat market has sold his home at 427 Patterson avenue and is now living at 347 Ivy street.

PLAN SURVEY

COLLEGE STUDENTS TO MAKE COMPLETE INQUIRY ON U. S. PROHIBITION EFFECTS

College students, acting under the direction of professors of economics and sociology in a number of colleges and universities, will undertake a survey of the effects of prohibition in their communities early in 1921. It is announced by the Intercollegiate Prohibition association. The investigation will be made under the auspices of this organization.

"The inquiry will seek to ascertain just what effect prohibition has had upon every line of industry, business and investment," L. D. Packler, publicity secretary of the association, said.

"It will also try to ascertain just what the result has been in regard to crime, health, recreation, scholarship, homelife and social welfare."

Mother's Chance

Once in a while mother gets tired of her own cooking—tired of cooking and tired of eating her own cooking. She wishes she might have a real good dinner cooked by some one else. But she can't leave the folks at home and go out somewhere for dinner—mother is unselfish. And to take the whole family out to dine would cost too much. Yet how she would relish a Sunday dinner cooked by some one else!

Now, here's mother's chance. She may have a whole Sunday dinner cooked by someone else, and she needn't dine out, either. The P.T. A. of the Acacia street school has planned a cooked food sale for Saturday afternoon from two to four that will satisfy mother's wish, exactly, and dispense with the work and worry of the Sunday dinner, for once. Meat loaves, salads, vegetables, pies, cakes, candy—every one of 'em home-made—there's a chance for mother to get a change from her own cooking.

But mother will have to "shop early," or the good things will be gone before she gets there.

PLAN DANCES

TUESDAY AND FRIDAY NIGHTS WILL BE GIVEN OVER TO DANCING AT STUDIO

Another source of entertainment for the people of Glendale generally will be provided when the dances to be given by Fred Howell and LeRoy Bush are started. Announcement as to the exact date appears elsewhere in this issue. These dances will be given every Tuesday and Friday night.

Heretofore many Glendale people journeyed to Los Angeles or the beaches for an evening at dancing. A clean and up-to-date dance studio is a desirable feature and will be welcomed by the people of this city. Messrs. Howell and Bush feel confident.

Splendid dance music is being planned, the soft, harmonious, rhythmic music now so popular both in New York City and in large hotels and country clubs, and not the loud "boiler-maker" variety. These dances will be held in the Pearl Kelter studio.

DROPS MILE IN PARACHUTE LAWTON. Ok.—A spectacular drop of five thousand feet from the wings of an airplane in a parachute was the feat performed today at Post field by Sergt. Anell Chambers of the 135th observation squadron. A large crowd witnessed the drop through the air. The plane was piloted by Lieut. William T. Agee.

Military training has been compulsory in New Zealand since 1910.

MAY INVEST HERE

FORMER MAYOR OF FRESNO IS INVESTIGATING PROPERTIES IN THIS DISTRICT

H. Parker Lyon of Fresno visited this city yesterday with the view of purchasing a lot and erecting a business building. Mr. Lyon is one of the largest real estate owners in Fresno, having been there over thirty years and owns a great many store buildings in that city. The fact that he has visited Glendale several times and is making inquiries of this kind leads to believe that he will soon number among local property owners, at least.

Mr. Lyon's eldest son has just returned from government service abroad and it is Mr. Lyon's plan to establish him in business in this city. Some years ago Mr. Lyon was mayor of the city of Fresno. He has large business interests in that city. Glendale appeals to him very strongly and there is every reason to believe that he will invest here.

Consumers of soft drinks have paid \$51,000,000 to the revenue department of the government. This would indicate that the soft drink business is in excess of \$500,000,000 a year.

New England, self-supporting in lumber twenty years ago, now has to import one-third of the amount used. It has \$300,000,000 invested in wood and forest industries employing over 90,000 wage earners.

Hand Colored Art Pictures

We have a pretty line of Sand Dunes, Cypress Trees, Missions, Swans and Cats. These pictures are artistically mounted in hand-made frames, done in color tones to match. Also our beautiful Art Butterfly Pictures and Serving Trays are considered a work of art. Any one of these pictures is a present worth giving and receiving.

CITY CHARTER

STATEMENT MADE TO BOARD OF FREEHOLDERS; REASONS FOR CHANGE GIVEN

(Continued from Page 1, First Section)
tion to obtain the broadest jurisdiction over their municipal affairs consistent with and only limited by the constitution of the state.

2. That the people of Glendale under this broad grant of authority secure for themselves the best municipal legislative and administrative organization obtainable suited to its needs.

3. By doing this the city will obtain a degree of independence both as to its status as a municipality and as to its power to govern itself that can be obtained in no other way.

4. That the people of Glendale as electors or through their city council may legislate on all matters pertaining to their welfare and interest and in this way take care of affairs of special interest without having to wait for the action of a sometimes quite unwilling state legislature.

Takes Advantage of Laws
5. Notwithstanding the independent legislative powers thus obtained, the charter may provide that all state laws applicable to cities may be applied to Glendale if not inconsistent with the charter or city ordinances. In this way the best of all the state laws may be taken advantage of.

6. The state laws, applicable to sixth class cities under which we are operating give the municipality a broad range of power. Nevertheless these powers can be extended by a freeholders charter. In some charters this broad range of power is sought to be had by an extensive enumeration of the various functions it is desired that the city be empowered to perform. The more modern charters, however, take care of this matter in very few words which, applied to Glendale, would be substantially as follows:

"The city of Glendale as its limits now are, or hereafter may be established, shall continue to be a body politic and corporate with perpetual succession, and as such shall possess and exercise all municipal powers not inconsistent with the constitution of California."

7. The charter may provide that unless a majority of the electors of the city shall affirmatively vote therefor at a general or special municipal election, the city may not be consolidated or any part thereof with any other city or county. This would give the city a degree of independence it does not now have as a city operating solely under the provisions of state law.

8. The charter might provide that the council by ordinance shall provide the procedure whereby the city through the agency of the street superintendent may perform public work for which the city may be the lowest and best bidder. Provision might be made whereby a revolving fund could be created for the purpose of financing the cost of public work while under construction.

Welfare and Relief Work
9. Larger powers to engage in welfare and relief work could be provided. As the city grows larger the need for this work increases and as matters now stand the city has practically no legal authority to appropriate money for these purposes.

10. A distribution of the executive and administrative powers and responsibilities now held by the board of trustees to responsible officials with authority to execute and administer the policies of the people and the council is a necessity in a city of this size.

11. An independent control of disbursements and finances should be had by the creation of the office of comptroller.

12. During the past ten years freeholders have been working constant in the development of a modern freeholders charter. By careful selection the best that has thus been worked out may be appropriated to the use and advantage of the people of Glendale.

13. By force of necessity and out of experience there has developed in our own city government an administrative organization that may be found by your body to be quite adapted to the needs of Glendale.

We have devoted, as many of you know, the larger portion of our time during the last fourteen years to city affairs in Glendale and during the last six and one-half years we have been engaged continually in this work. During this period the city has developed from a very small village to a community of approximately twenty thousand people and it has been necessary to develop and expand the city government to keep pace with this growth. Fortunately the laws providing for cities of the sixth class have been kept quite well up-to-date and taken together constitute a very simple yet effective municipal procedure. In fact, these laws contain practically all of the fundamentals of the best modern city government.

Chart is Prepared
We prepared a paper for the convention of the League of California Municipalities held in Santa Rosa in 1917 on the fundamentals of city government as set forth in the laws pertaining to cities of the sixth class and in connection with this paper we prepared a chart in the form of an arch, copy of which we present to the board with the hope that it may assist you somewhat in your

studies. It will be noted that the two foundation stones of this arch are on one side, the human element from which all authority originates, and on the other side the service element which is the object of all grants of authority, legislative or executive.

You will also note that the keystone of the arch separates the political and executive sections. In the political side popular legislative control is provided through the initiative, referendum and recall by which the electors of the city may initiate legislation, may demand that a popular vote be taken on any proposed legislation and may recall unsatisfactory city officials. These powers are reserved to the people in most modern city charters.

You will note that it is provided that officials shall be elected at large. This is provided for in the sixth class city and there seems to be a tendency in all modern charters to recognize this as one of the fundamental principles in the establishment of good government.

The short ballot is provided for in that there are only seven elective officers in the sixth class city, five of which, however, constitute the board of trustees which is the sole legislative and executive body. Here again the sixth class city is in harmony with the most modern tendency in city government in that the responsibilities are centralized in a small body of elective officials over which the electors have control.

You will notice that the keystone divides the board of trustees into one legislative body and one executive body and that the keystone provides for political insulation between these two bodies. Some say this is theoretically nice but practically impossible. I want to say, however, speaking from more than fourteen years' experience that this has practically and effectively been done in the city of Glendale and that there is practically no political interference with administrative affairs in the city of Glendale at this time nor has there ever been any tendency on the part of any board of trustees—I speak advisedly because I have known them all—to inject politics for their advantage into the administrative affairs of the city.

Executives Are Required

Originally the laws providing for cities of the sixth class contemplated the organization of a small village into a municipality and that the board of trustees not only be the legislative body, but that it also carry on directly a great deal of the executive and administrative work. The law specifically provides that none of the powers of the board of trustees be delegated to any subordinate official. The volume of business in the city has now reached the point where no body of five trustees should be expected to personally administer it and that is one of the reasons for the necessity of a freeholders charter so that there might be created, under this charter, the necessary executive and administrative officers to administer the policies of the people and the council.

You will notice that one section of the arch is devoted to administrative heads or managers. That, of course, is a matter of form. The principles of the best city government may be applied through the offices of several administrative or executive offices or through the office of city manager. We will explain later how it is administered in Glendale through the office of city manager.

In order that those entrusted with executive responsibility may execute those duties most efficiently they must have authority equal to this responsibility. That is set forth as one of the sections of the arch and in our opinion is quite essential to good city government.

One section is devoted to administrative departments setting forth that they should be based on distinctive sources of revenue and the character of service rendered.

Organization Chart

We have prepared an organization chart, copies of which we will supply each member of the board, setting forth the present organization as embodied in Ordinance No. 355. We will not attempt here to explain this chart in detail. We will be glad, however, to answer any questions concerning it that might be in the mind of any member of the board. We will call attention to one item. You will notice that comptroller is set forth in red under city treasurer. As herein stated we believe that we need this office in addition to those we now have. It does not necessarily follow, however, that this means another official. It is probable that this office could be combined with some other.

We have also placed in the hands of each member of your board a chart indicating the present accounting procedure. We will not attempt here to explain this in detail; in fact, the procedure is quite clearly set forth in the chart. The general plan, however, is that once a year an estimate of the income and expenditure for the ensuing year will be prepared and presented to the board of trustees. After due consideration this budget is approved as presented or modified and becomes the financial plan for the year.

There is an appropriation to cover the expense of performing the several city functions respectively. An account is set up on the budget ledger for each one of these respective functions and the appropriation credited thereto. The disbursements on account of these several functions are deducted once a month

Christmas Candies

Once again this year Santa Claus has selected this store as his Christmas Candy Headquarters.

He has asked us to stock up with a line of the best and freshest chocolates we can buy, all packed in attractive boxes—the kind a fellow is proud to give his girl and the kind she loves.

Then he asked us to have on hand all kinds of hard candies and fancy candies in bulk—the kind that children like at Christmas—in large amounts, enough to supply all the kids in Glendale and the grown-ups too, for everyone wants candy at Christmas.

And he wants us to say that if you are going to need a quantity of candy for any purpose at Christmas

This is the time to order it

In the meantime we are still serving meals from 6:30 a. m. to 11 p. m. and our fountain service is still popular.

from the appropriations and a report is prepared monthly indicating the state of each appropriation account. In this way control of the disbursements is had. We have in mind, however, that the charter should provide for a comptroller as stated before, whose duty it would be to see that all disbursements are in accordance with appropriations and that no disbursements are made except that the council has previously appropriated funds for that purpose. The authority of the comptroller should extend to and be applied to the point of purchase. To that end it should be provided that all orders that would obligate the city for the payment of any sum whatsoever should be subject to the approval of the comptroller before the same are issued.

Services Are Offered

We desire to say further that we realize the time in which your board of freeholders has to frame a charter is limited if the charter is to be prepared in time for presentation to the next session of the legislature. For that reason we want the committee to feel that we are ready to render any service that we may in this connection to facilitate your work and to say on behalf of the board of

trustees that all assistance required by your board will be furnished.

The fact that the board has called three successive elections for the election of a board of freeholders is evidence in itself that they are in accord with the effort to obtain a freeholders charter for Glendale. The apparent lack of interest on the part of the general public in this matter comes only from a lack of knowledge of the situation. We believe, however, that the people of Glendale when informed in detail as to the need for a charter and when a charter suited to their needs has been prepared and presented to them that they will do their part as they have always done in matters of public interest requiring their action.

Respectfully submitted,
T. W. WATSON,
City Manager.

The French franc, which has sagged in value from about 20 cents to about 5 cents, is now known throughout the country by the good American name of "nickel."

A handcuffed bicycle rider recently made a 10,000-mile trip through the eastern states in less than seven months.

"PEACH KING" POISON VICTIM
FORT VALLEY, Ga.—Warrants charging murder in connection with the death last June under mysterious circumstances of Fred D. Shepard, known as the "Georgia Peach King," were served tonight on Mrs. F. E. Elmer, former wife of the peach grower; Mrs. Ione Henry, sister of Mrs. Elmer, and Ernest Hopson, son of Mrs. Elmer by a marriage previous to that with Shepard.

The arrest of all three was ordered after a pathologist and a chemist had testified at a coroner's investigation here that a post mortem examination of Shepard's body had revealed the presence of poison in the viscera.

Mrs. Elmer, who took charge of Shepard's property after his death on the grounds that he died intestate, was arrested as she was leaving the court room where the coroner's investigation was held. The first charge placed against her was illegal appropriation of Shepard's property. Several hours later she was served with a warrant charging her with murder in connection with Shepard's death. Mrs. Henry and Hopson were arrested at their homes in Perry, near here.

The cost of the British army of occupation on the Rhine was 3,600,000 pounds sterling a year.

LIBRARY BOOKS

NEW READING MATTER COMES
TO LOCAL INSTITUTION
AND IS RELEASED

Following is a list of the new books received by the Glendale library for the past week, and which were released yesterday afternoon:

Scientific American Handbook of Facts, etc.

Scientific American Reference Book.

The Best Plays of 1919-20.

Anthology of Magazine Verse for 1920.

South Sea Foam—By A. Sanfron-Middleton. This is described by the Chicago Daily News as "Sufficient to stir one's fancy and rout dullness and the blues. If you love life you will like this book." South Sea Foam is a chronicle of yagabonding among the isles of the South Seas. In it the author gives many charming translations of the mythology of the islanders.

The Man and the New Democracy

—By William A. McKeever. Doctor McKeever has made a large place for himself in American life by his important contributions to the subject of juvenile culture. As head of Child Welfare in the University of Kansas, as author, as lecturer, as Boy Scout leader and in his widely syndicated newspaper articles he has asserted a very deep and salutary influence on the minds of thinking people.

Proper Protection of Young

This, his latest book, pleads eloquently and convincingly for the proper protection and education of the young in order that the "Great Common Man" inherent in American life may come to full fruition. Every educator, parent and patriot should read and heed this eloquent appeal.

Pawns—By John Drinkwater, author of "Abraham Lincoln, a Play."

Ancient History.

A Poor Wise Man—By Mary Roberts Rinehart. A new American novel of fine distinction, written in the style of "Dangerous Days" and "The Amazing Interlude." Dramatic intensity and the sweep of a fine romance are here in this new novel by Mrs. Rinehart in a story of "all of us."

The Captives—By Hugh Walpole. The strange story of Maggie Cardina, considered by the author to be his most important work.

Laboratory Manual of Organic Chemistry.

Vaccination of the Kelwyns.

Hygiene of the Child.

Twelve Hundred a Year.

Lilith.

Schools of Tomorrow.

Religious Training in the School and Home.

A History of Architecture.

All new books received during the week are now released by the library every Thursday afternoon at 2:30 o'clock.

SEEKING OIL

GREAT QUANTITY IS SUBJECT
TO RECOVERY, IS REPORTED
AS RESULT OF SURVEY

Estimates have been prepared by the bureau of mines showing that approximately three and one-half million dollars worth of oil may be recovered in California, principally in Los Angeles, Ventura and Santa Barbara counties. A survey of the oil districts of California was made by the bureau in order to learn whether the visible masses of wasted oil-bearing sands would be a profitable source of supply.

From the data collected it is estimated that 2,359,100 barrels of oil valued at more than \$3,500,000, could be obtained from the sand piles about producing wells and from the outcroppings in the vicinity of the fields. Many times that amount of oil scattered over nearly the total oil producing area might be recovered from seepage. Seepage, in these cases, is the oil permitted to return into the ground or remain on the surface of the oil saturated ground.

Further search for sources from which crude oil might be extracted, reveals the fact that in the natural asphalt beds and seeps along the coast of California enormous quantities can be obtained. Refined asphalt, which is the last product from California asphalt base crude, is shown by analysis to be a rich field, though small for obtaining a large quantity of volatile liquid.

Laboratory tests showed a recovery of nearly 78 per cent with an extraction equivalent to 178 gallons per ton of asphalt. The product had a gravity ranging between 19 and 20 degrees and distillation tests proved it to contain 15 per cent gasoline.

Bureau of mines statistics show the average output of refineries as about 18,000 tons per month. This output represents 763,000 barrels of cracked oil at a value of over \$1,000,000.

The total estimates the government claims probably represent less than one-half the available oil recoverable from by-products and sand outcroppings in California.

The probable cost of installing a plant for extracting oil such as a cracking plant cannot be given, as there are conditions in each locality that must be worked out separately.

STATE LEADS

REMARKABLE SHOW IS MADE
IN CALIFORNIA FINANCES,
SO REPORT INDICATES

The state of California, although only eighth in population among the states of the union, is the fifth in state bank resources. Its banking resources total \$2,440,487,000. Of this aggregate the assets of the state banks are \$1,402,300,000, and the national banks \$1,038,127,000.

This is according to the report of State Bank Superintendent Stern, who declared that in banking power per capita, in bank deposits per capita and in the size of the per capita deposit California stands in the front rank of the states.

New deposits were started by \$1,943 people during the year, as against a net gain of 39,434 during the year 1918-1919, making the total number of depositors in the savings banks 1,429,395.

"To move the crops money has been borrowed in large amounts," says Stern. "To make these loans the banks have borrowed in large sums. Their total of bills payable and rediscounts for entirely legitimate crop movement purposes is very great."

"From the federal reserve banks down through the state banking departments and the individual banking institutions themselves, the warning has been sounded. This is no time for food speculation or for holding for high prices. Liquidation of the collateral underlying these loans in sufficient amount to pay these obligations is essential to our economic safety and must be insisted upon by every financial agency with power so to insist."

"The state or the bank or the individual that undertakes to stand against this pressure may dam it for the moment, but will be inevitably overwhelmed."

POSTAL NEEDS

CONSTRUCTIVE CRITICISM IS
MADE OF SYSTEM UPON
ORDER OF CONGRESS

Here's what Uncle Sam's postal service needs:

1. Complete separation of parcel post and first-class mail.
2. Reorganization of railway and overseas mail distribution.
3. Better facilities for handling mail in big terminals.
4. Better branch postoffices and higher salaries.

These, roughly, are the improvements W. B. Richards and company engineers will recommend Uncle Sam to make. The company is the first to be employed by congress to make a constructive criticism of the mails. It is probable that the joint postal service commission will adopt its report and in this case congress is likely to order the changes made.

Charles A. Howard of the Richards company gave the first interview on the company's survey and the changes it will recommend.

"Only twelve to fifteen per cent of the total mail today is first-class," said Howard. "The bulk is parcel post. Probably the size of parcels will be increased and that makes it doubly important that a new plan of caring for parcel post mail be adopted; otherwise the mail will be swamped. The present system was organized to care for first-class mail and is antiquated and inadequate."

May Buy Space on Trains

"At present," Howard explained, "mail is carried on certain trains only. If a shipment of mail misses its regular train it may have to wait several trains before another arrives on which space is chartered. Space may have to be bought on all trains as was done at one time."

"Foreign mail service is in very bad shape," Howard told me. "There isn't so much overseas mail, but it comes in clunks and is capable of disrupting the entire New York mail service until it is handled. It is often delayed there for three or four days. Probably we shall recommend a sea post service similar to the railway mail service. At present there are not enough boats in the service. Foreign mail by the new plan would be handled separate from domestic mail."

"The big cities present special problems," Howard believes. "New York is the heart of the postal service. The system of pneumatic tubes once used, that carried mail from the central to sub-postoffices may have to be restored, and there is also the question of mail tunnels in New York. New York alone has 300 motor trucks in mail service. Probably the whole service will have to be equipped with trucks."

Question of Salaries

"One of the most important causes of inefficiency is the postoffice building itself. This is the fault of a foolish law that provides the buildings be planned by the treasury department. Many postoffices are inconceivably inadequate."

"The question of salaries is vital," Howard declared. "The department cannot get men to fill jobs at present salaries. In business companies meet competition in the matter of salaries. The postoffice department cannot. The man in New York must draw the same pay as the man in Kansas although he has to pay more to live."

The Richards company has not yet been able to survey the air mail. Howard thinks many provisions will have to be made for this increasing class of service.

To Those who
are only
"Half Alive"

—A course of living at Glendale Sanitarium means an increase of internal force—more body power—more mind power—greater capacity in every way.

—You learn how to measure your years not by the calendar but by the condition of your body. You learn methods designed to energize body and mind. You are surrounded by those influences that make for a saner and more potent life.

—The Glendale Sanitarium method of treatment is splendidly adapted to the needs of tired, depressed and overworked people.

—The daily routine for patients is so planned that they are kept thoroughly busy getting well. There is no time for homesickness, the "blues" or for the exchange of symptoms.

—No two patients have the same program as each condition has its own peculiarities and each case is treated individually.

—The Glendale Sanitarium is denominational in character—yet it welcomes people of all beliefs.

If you're suffering and sorrowing

NEW REPUBLIC

HAS NO CAPITAL NOR HAS IT
ANY TERRITORY BUT IT IS
PROVIDED WITH STAMP

There is a new republic in Europe: it has no capital—in fact, has no territory at all; it has, therefore, no government, no army, no navy, no police, no taxes, and no citizens to pay them.

It has, however, a postage stamp. This is the republic of Alsace-Lorraine. It exists in the persons of a committee of three: Count Rapp, Rene C. Ley and H. Muth.

Messrs. Rapp, Ley and Muth started this business of a republic before the French occupation. So they were forced to cut and run at the armistice. They found a refuge in Switzerland, whence they directed two lengthy appeals to President Wilson, protesting against bestowing Alsace Lorraine on France, and neither of these he acknowledged. M. Millerand, commissary general for the French republic in Alsace Lorraine, heard all about it and Messrs. Rapp, Ley and Muth were indicted, tried (in their absence) and sentenced to deportation for life.

The three republicans then lodged a formal complaint with the secretary general of the league of nations, Sir James Eric Drummond, suggesting that the league reverse the decree of the peace conference. They then (in July, 1919) placed the whole matter before Gustav Ador, president of the federated council of Switzerland. The only report of the result of this conference is by Count Rapp who quotes M. Ador as being extremely sympathetic while regretting very much that Switzerland could not complicate her position in foreign affairs by espousing it. The members of the Swiss foreign department also agreed that it was too bad the federated council of Switzerland would have to forego all intervention in so extremely difficult a question.

After flitting from Berne to Basle, and from Basle to Berne, the committee of three landed in Baden-Baden, which has been their headquarters. Here they are printing and distributing broadcast statements of their case; here, also, they designed a very pretty postage stamp which, however, for the present, they put inside their mail, using the ordinary stamps of existing predatory states for the outside.

Now, don't run away with a wrong idea. It is true the committee feels kindly toward Germany; but union with Germany is not their objective. They have good historic ground for their argument, and they have a crowning argument in the fatal weakness of the Versailles treaty—the failure to provide a plebiscite in Alsace Lorraine which, almost certainly, would have given the territory to France, and at the same time would have removed the fluent cry now raised of annexation.

If the republic of three men could have its way it would unite with Switzerland, but the Swiss are too wise to consider or encourage such an ambition. Failing that, they want independence, even if as a French protectorate; with their own ministry, parliament, militia and the like.

The committee of three claims to represent "Young Alsace." Some of its arguments are fatuous, but they are not without good logic, and when that logic is founded on self-determination, it gains strength.

Of course the republic is doomed to confine itself to the house in Baden-Baden.

But it is an interesting situation. And the postage stamp is easily the prettiest design in all Europe.

DRAWS MONEY

CANADIAN INDUSTRIES DRAW
AMERICAN CAPITAL, SAYS
BANK CORPORATION

The stimulating effect of the war upon Canadian industry has attracted large amounts of American capital for investment in the Dominion's manufactures. There are now in Canada about 600 American-owned plants, according to estimates of the Bankers Trust company.

"It is estimated," says the company, "that Americans have invested in Canada upwards of \$1,250,000,000 as against one-fifth of this amount in 1914. The sums annually payable by Canada to our citizens for interest, profits, freights and insurance, probably now aggregate or perhaps even exceed \$75,000,000 a year. For the period of the war and since, these payments to the United States have probably amounted to around \$420,000,000.

In quoting returns from 34,380 Canadian manufacturing establishments for 1917 (the latest statistics available) the study discloses that the total capital invested was \$2,772,517,000, an increase of \$778,414,000, or 39 per cent over 1915. Gross value of goods produced in 1917 was \$3,015,000,000, while cost of materials was \$1,600,000,000, leaving a net value added to the process of manufacture of \$1,400,000.

Governor John M. Parker of Louisiana has issued a call for a meeting with the object in view of devising ways and means to prevent the Mississippi river from cutting a new mouth, through the delta, to the Gulf of Mexico, by following one of its old mouths, the Atchafalaya river, down to a point 100 miles west of New Orleans.

Approximately 190,000 immigrants will enter Canada this year.

CANNED GOODS

ENGLISH BUYER IN STATE TO
URGE LOWER PRICES AND
GET LARGE SUPPLIES

Representing the firm of Alexander Crichton & Company of Liverpool and London, largest importers of California canned goods and dried fruits in England, A. J. Willson is now making a tour of the state to argue for lower prices on canned goods and fruits and to make plans to secure a huge supply. Ninety per cent of the products used in England come from California.

With him is his friend and legal adviser, C. E. Maples, holder of numerous allied awards and particularly that of a Chevalier of the Order of Leopold, conferred by King Albert for conspicuous service in conducting British relief work in Belgium. Mr. Maples is also famed as a big game hunter in almost every wild region of the earth.

California canned goods must be sold to British importers at lower prices or buying will stop, Mr. Willson says. Indeed, buying by England from this state direct, as formerly, ceased many months ago, and for over half a year England has been using its two and a half to one exchange handicap over France to take away from it virtually all of the canned goods accumulated there over a year of strenuous buying in those lines by the French. England has also practically wiped out the stocks in the Scandinavian countries, the only other holders of large quantities of California goods.

Seeks Cut in Prices
In other words, England has been taking the surplus foodstuffs bought by other European countries in this state away from them, thanks to the power of the pound sterling when it is working toward Europe. Now it must come here to buy direct, and it wants California to cut the price.

The English people have hammered prices in nearly all lines to pieces, says Mr. Willson, clothes having dropped recently from \$100 to \$25 a suit, with similar collapses in other commodities. They are now starting their drive on groceries, and have forced a 50 per cent recession, or to put it from the angle of the importer, the British buyers have been able to give the British public the benefit of the supremacy expressed itself have about gone. England must now come here and pay the price, or persuade the fruit men to take less, or do without. Mr. Willson says that he is here in a friendly capacity to tell the fruit men that they must be reasonable.

He is forced to admit, however, that there are virtually no other stocks which British importers can fall back on to take the place of those from this state when the present diminishing margin has disappeared, which is a matter of weeks only now. He also admits that every European country with buying power is "sold" on California canned goods, and that they will very soon be calling on this state for the replenishment of their depleted stocks.

Should France, which a year ago had a sudden spurt of buying and laid in large stocks of California goods at an almost ruinous handicap in exchange, determine to refill its shelves as a result of British purchases, and should she determine to buy regardless of the exchange, Mr. Willson thinks that the British importer of fruit will have to withdraw from the market for the time being. However, he thinks that the fact that France is surrendering its canned goods to England proves that she knows it must forego those commodities for a time.

THEY GO BROKE FOR LOVE

CHICAGO—The high cost of getting married so far has had no appreciable effect in reducing the number of weddings. More weddings, according to license statistics, occurred in June than ever before in one month in American history. Fall weddings have been plentiful enough to dispel any fears that a nationwide strike of bridegrooms is in prospect.

Diamond engagement rings are a big item in the expense of honeymoon happiness. One that costs \$200 is dirt cheap. Very pretty ones, plain, simple little affairs, set the bridegroom back \$500. A narrow platinum band with three diamonds, guaranteed to send the most fastidious bride into ecstasies, can be bought for \$1,000. Fathers of the young men of today remember when a \$100 diamond engagement ring was considered very nifty.

Time was when a wedding ring cost \$5. Plain platinum bands, now fashionable, cost around \$50.

"But," said a jeweler, "bridegrooms never flinch at prices. They marry gems. Going broke for love seems a favorite form of martyrdom."

At the coming session of congress a bill will be introduced to wipe out trading in grain futures where no grain changes hands. As the bill will affect only gamblers and will not interfere with the business of legitimate grain dealers, the farmers are in favor of its passage.

Japanese who are leaving California because of the new anti-alien law are going into Texas, where during the last two months they have acquired by lease or purchase one-fourth of the irrigated land in the Rio Grande valley.

A Man's Gift Store—

Useful
and
Practical

—Gifts Please Men

Some Suggestions for Gifts for Him—

A SHIRT

No man ever had too many shirts. You won't make a mistake if you give him one or more for Xmas. We carry all the well-known brands.

A NECKTIE

An always-popular gift that appeals to men and boys of all ages. We have an especially fine line of ties in a wide range of prices.

HOSIERY

A pair of silk or lisle socks or better still a half dozen pair will strike a responsive chord in the heart of the man who receives them.

AN UMBRELLA

A giveable article that is always acceptable. Our holiday display is interesting.

REDS HOLD AMERICAN WOMAN

BALTIMORE—Mrs. Marguerite E. Harrison, formerly a member of the staff of the Baltimore Sun, who is doing newspaper work in Russia, has been arrested and imprisoned by the soviet government in Moscow, according to a dispatch received from Paris recently.

Mrs. Harrison is charged by the soviet government with being a secret service agent of the state department of the United States, according to the information. It is alleged that she sent information to Washington through an Englishman, who translated her messages, written on Danish and German bank notes, and called them from Reval to Washington.

While no information has been received in Baltimore direct from Mrs. Harrison, it had been previously rumored that she was under arrest and forcibly detained in Moscow by the soviet authorities. It appears that she was released the first time, upon her promise to furnish information to the authorities regarding the movements of foreigners in Moscow. The Englishman to whom it is said she intrusted her message to Washington is a physician residing in London.

FLOWERS

—are always appropriate gifts. Whenever in doubt what to give, you'll make no mistake in sending flowers.

If it's a message of condolence, congratulation or appreciation, flowers will convey your meaning, and they are here in abundance.
